POST EVENT REPORT
NAVIGATING THE FUTURE OF
HEALTHCARE

THE ROLE OF HEALTH INSURANCE IN THE DELIVERY OF QUALITY
HEALTHCARE SERVICES.

VIRTUAL LIVE CONFERENCE

THANK YOU FOR ATTENDING

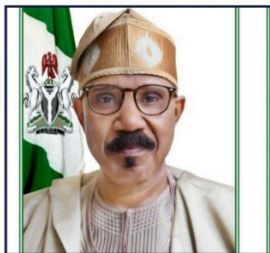

The aim of the Lagos Health Summit 2020 edition is to clarify shared challenges facing the Nigeria Health Sector with key emphasis on funding and access to sufficient and reliable healthcare service.

Beyond creating a platform for debate and action, the summit gives an opportunity to showcase innovative healthcare solutions that meet the challenges been faced by the health sector in the short and long term projections.

Moshood Habeeb
Executive Director, Lagos Health Summit

President, CAPDAN

EXCERPTS FROM LAGOS HEALTH SUMMIT

"If we position well for authentic stories, we can get funding through crowdfunding"

Pharm. Abimbola Adebankin

"NHIS needs to be optimized to be a regulatory body and there should be regulation of the premium charged by HMOs to aid sustainability."

Dr Ejiro Onoro.

"Funding the health sector is still largely out of pocket other sources include government allocations, grants and donor funds".

Mr Olufemi Akingbade

"Health Insurance policies should be decentralized in its adoption, to allow all tiers of government local and state create health insurance frameworks that works for them"

Mr Ojikutu Adeniji.

"Making health insurance compulsory is crucial. Without it, there will be little fruit borne from the efforts of HMOs in general as regarding improving healthcare coverage."

Dr Ejiro Onoro.

"Health Insurance helps to mobilize and pool funds that otherwise we will not be able to earmark and allocate efficiently."

Dr. Adeola Majiyagbe

"The National Health Insurance Commission bill which would make health insurance mandatory needs to be passed. The bill is still being discussed at the senate and when passed, it would do a lot to improve healthcare coverage beyond what we currently have."

Dr Ejiro Onoro.

"Health insurance can not solve all our healthcare funding problems. It can only help to mobilize and pool funds that otherwise will not be earmarked or effectively allocated."

Dr Adeola Majiyagbe.

"If Nigerians could see highlights of the key performance indicators (KPIs) and every HMO's audited financial statements, they would have more confidence in the system."

Dr Ejiro Onoro.
